Benefit

German Institut
Sankt Petersburg
быстрый результат
Bylitza System · DIK320 - QualiPass

- learning foreign languages in 3 days.
- we overcome the language barriers worldwide with ease
- we connect people...

Customers / users

- Every Facebook user is also our potential user
(Facebook has about 2.3 billion users per month)
- we connect people worldwide...
- Platform for Carehomes, Doctors & Patients
(IHO, International HUMANITY Organisation AG)

How is money earned ?

1. After **REGISTRATION** and **LOGIN**, the avatar greets the student in his language and introduces into the system.
2. The student **chooses** his preferred **language**.
3. After **BOOKING** and **PAYMENT** the language training follows.
4. Until the final **examination**.

Implementation steps

1st step:

Prototype for Russian -> German

Conception, development, programming, testing and completion

>>> **from here on (approx. 6 months from START) money is earned**

(approx. 210 million Russian-speaking people worldwide, With this money the further development is financed)

2nd step:

Extension by additional languages

3rd step:

Extension modules for technical-languages, specified modules, simultaneous translation modules, exam modules etc.

Who programs the AVATAR?

1. ITMO University Sankt Petersburg, **Prof. Dr. Borisov**
2. UNIVERSITY Sankt Petersburg, **Prof. Dr. Guzov**

Members of the Scientific Advisory Board of the German-Institut:

Prof. Dr. Iurii Guzov, Vice-Dean of the Faculty of Economics of the University of St. Petersburg

Prof. Dr. Nikolay Borisov, the **Director** of the Center for Multimedia and Design of ITMO

University Saint Petersburg, ITMO University is the **best IT university in Russia** and one of the **world's leading**. We already signed an **LOI on August 7th** and **decided to jointly implement the AVATAR project**.

Who does which task?

Breakdown of tasks:

- 1. Klaus Bylitza**
 - delivers the Bylitza-System and its know-how to the individual languages.
- 2. University St. Petersburg**
 - Project coordination and management in Russia, scientific supervision and support (**Prof. Guzov**, **Prof. Polyakov** and scientific staff)
- 3. ITMO University St. Petersburg**
 - Concept development, programming, creation of the prototype, testing, technical implementation, further development, technical support, updates (**Prof. Borisov** and scientific staff)
- 4. Investor**
 - **Financial Support, EUR 2.5 million**
- 5. German-Institut**
 - Management and overall coordination, project responsibility and management, company foundation (1 million shares, in the second step splitting the stock x100)

Required financial support:

Details in a face-to-face meeting

1. EUR 2.5 million

AVATAR (ROI - multiply capital by the IPO)

for the development work and establishment of the joint-stock company.

- **The invested capital will outperform in a time period of max. 3 to 5 years**
- We establish a share company.
- All rights will be transferred to the joint-stock company.
- The investor receives a fixed portion of the shares.
- After the development of the AVATAR, the joint-stock company will go to the stock market (IPO).
Later the AVATAR can be used for many other tasks: Tutoring, expert systems, etc

2. EUR 0.2 - 1.2 billion

**Health and citizens terminal
(120,000 pieces, ROI > 18 %)**

3. EUR 500 million

40 Carehotels \$39c (ROI > 7 %)
